We pride ourselves on building relationships with the owners of the cars we service. In fact, many customers will return to Drellishak's longer than the life of their car. Drellishak's works diligently at every opportunity to earn your business for life.

TRUSTED BRANDS

TIPS TO GET YOUR CAR READY FOR...WINTER!

- 1. Change your oil:** Generally, you'll need a thinner oil in the winter.
- 2. Check the ratio on your engine coolant (antifreeze):** During winter it should be 60/40.
- 3. Check your battery:** A simple way is by turning on your headlights before you start your engine. Then turn your engine on - if the lights get brighter, your battery may be dying. Also, check battery cables for cracks and breaks. Ask your mechanic to check the battery fluid.
- 4. Change your washer fluid and windshield wipers:** Buy washer fluid with an antifreeze solution and replace your wipers every 6-12 months, depending on wear and tear.
- 5. Get a basic tune-up roughly every 30,000 miles:** Check belts and hoses, ignition, brakes, wiring, fan belts, spark plugs, air, fuel and emission filters and the PCV valve.
- 6. Check your defroster and heater:** Also check for air leaks around doors and windows.
- 7. Check your tires:** Check the air pressure and check tread for wear and tear.
- 8. Check your four wheel drive and know how to use it:** Ask if you're not sure!
- 9. Keep your gas tank ¼ - ½ full:** Cold weather can cause condensation to form in a near empty tank, causing water to drip into the tank and sink to the bottom. It can then travel and freeze in your fuel lines.
- 10. Have a de-icer handy (home/purse/briefcase):** It's not uncommon for car doors to freeze shut in the winter. Warm water or glycerin will work in a pinch.
- 11. Beef up your car's emergency kit:** Include a first aid kit, soft-bristled snow brush, plastic scraper, kitty litter or salt, shovel, flashlight (with fresh batteries), flares, extra gloves/coat/snow boots/, blanket, optional tire chains.
- 12. Get your car detailed:** This is optional, but good for protecting your paint job from snow and salt damage over the winter.
