On the Hunt

Easter Egg Hunt!

Every year since 1955, the Westlake Town Criers have sponsored the annual city Easter Egg Hunt. This year the event was held last Saturday, April 12, on the playground in front of the Westlake Recreation Center. Children in groups ages 4-6 and 7-10 took off on a scramble for wrapped candy and in search of special eggs redeemable for prizes. Happy Easter everyone! And thank you, Westlake Town Criers!

Best of the West

Party Time!

Award winning baker Karen Bosworth of KB Confections in Lakewood captured the spirit of the annual Best of the West party held at La-Centre last Thursday. Karen and her husband, Dan, joined with dozens of other west side businesses as they competed for this year's coveted Best of the West honors in a variety of merchant categories. See the picture page inside today's Crocker Press.

Keenan will be remembered in Westlake as the Superintendent who built the new high school and middle school. We will always remember Dr. Keenan as a leader by example. He endured a ton of criticism, some of it bordering on abusive, from political opponents. Through it all, Dr. Keenan brought a spirit of civility to the table. When he was honored as the State Superintendent of the Year last fall, his dad, Dan Keenan, Sr., commented that Dr. Keenan would always respect another's view, even if he didn't agree with it. Dr. Dan Keenan does that. His overriding commitment to civility demonstrated that progress can be made in the midst of hostility if you stick to the issues and treat the other guy with respect and dignity. It is a lesson we hope Westlake Schools and the community at large will honor when he leaves.

TAXED TO THE MAX: Now that the April 15 tax deadline has passed, we want to share a tidbit from Sen. Rob Portman on the frustrations of the behemoth agency. "Since 2001, the code itself has been changed nearly 5,000 times. The burden is on taxpayers to keep up with those changes," writes Sen. Portman. He attached the above photo to make his point.

Come One, Come All: The Taste of Westlake!

It's time you whet your appetite, Westlake! The 6th Annual Taste of Westlake is coming!

On Thursday, April 24th, Citizens for Westlake Schools, a community action committee formed to promote and support the Excellence of Westlake Schools, will present the 6th Annual Taste of Westlake at Wagner's of Westlake.

Each participating restaurant provides food for guests to try, from savory appetizer bites to delicious treats for dessert. The Taste of Westlake is an event to enjoy and mingle with fellow community members.

New this year is the location - Wagner's of Westlake, and the entertainment - Westlake High School class of 2009 graduate and pianist/singer Jonathan Hooper. Both changes were thoughtfully made to showcase the excellence that our community has to offer.

All of the proceeds from this event will help fund campaign and outreach efforts for the district's next operating levy. While an official announcement has not been made, the Citizens for Westlake schools need to be prepared for a campaign in 2014 or 2015.

The festivities will begin at 6:30p, with hearty fare from several area restaurants and caterers. In 2013, over 500 people attended this event. Tickets are on sale now for \$30. For more information, please visit westlakelevy.com, or contact Megan Moutoux, Taste of Westlake Chairperson, at meganmoutoux@aol.com.

Dr. Kinneret Kozinn

Like all things in life, technology has made our society much easier to live in. We could not image years ago when we thought that the remote control for a television was such a big advancement, that here in the year 2014 you would have flat screen TVs, TiVo, automatically recording anything you want, and high definition TV. In all aspects of our lives, which include medically, professionally, and our personal lives at home, new technology doesn't look at all they way things looked 20, 30 or even 40 years ago.

Then why is it when you go into most dental offices, they look the same as they did years ago? Patients look at the same high speed drills that make the high pitched whining sound. It would seem to the casual observer that not much as changed in dentistry over the past 30 years. This impression could not be more mistaken. Dentistry has come a long way with fillings that actually bond to your teeth, look like teeth, and feel a lot like

teeth. In this one aspect, the high speed drill is still 40 year old technology and works well but now there is definitely a better way.

Laser dentistry is beginning to make a huge impact in dental treatment. In many instances it is easy and faster to use a laser than it is to use one of those drills. With the high speed drill, patients almost always need to get an injection of local anesthesia to numb the teeth. With lasers, much more often than not, getting a shot is not necessary. A high speed drill only works on teeth while a dental laser can work on teeth and on the gums. Laser therapy for gum disease seems to heal better and faster, and if it is minor gum surgery, also usually does not require getting numb.

Certainly there are limitations as to what a laser can do, but they are very few. You can not use the laser to remove an old silver filling. It is a little difficult at this stage of the game to prepare a tooth for a full crown with

a laser. But for a lot of dental treatment, laser dental therapy can be the preferred method for dentists and patients alike. So when you come into our office, you won't hear the drill as much as you used to because lasers have now become a huge development in treating teeth and gums.

The other new minimally invasive technique in dentistry is porcelain veneers. There are new veneers called Lumineers which can be done without touching the teeth at all in many cases and in some cases the teeth may need some mild preparation in which patients don't even have to get numb. You can now dramatically create a beautiful smile with often no pain and no anesthesia. Lumineers are permanent, painless and

pleasant to receive.

Summer is almost here, so it is really that time to get your smile in super shape. If you are interested in minimally invasive dentistry, please call our office at 440-892-1810 for a free consultation. Give yourself the gift of a wonderful, healthy smile!

Easter Egg Hunt...

Life Care Center of Westlake enjoyed Spring weather Saturday and celebrated with an Easter egg hunt.....

MyCare Ohio: One Card for Medicare and Medicaid

MyCare Ohio is a new program that will allow qualifying Ohioans to access Medicare and Medicaid benefits with one card and one point of contact.

Details of MyCare Ohio were presented at Life Care Center of Westlake last week by representatives from United Health Care, CareSource and Buckeye Community Health Plan.

They are the three medical providers appointed by the state of Ohio to represent MyCare Ohio in the Cuyahoga and Lorain County region.

"Our role is to help our residents make the best decision for themselves," said Life Center Director Maryann Dubyoski. Katie Bowen, Business Office Manager, is currently assisting the residents and family members of Life Care to enroll into MyCare Ohio.

About MyCare Ohio

MyCare Ohio offers residents a simplified way to access Medicare and Medicaid benefits under one roof.

"You will get one benefit card and one point of contact," said CareSource representative Kathy Zamudio. Members can choose from a primary care provider panel and will have a case manager.

"The key here is patients are dual-eligible for both Medicare and Medicaid. It is an integrated pro-

gram," said UnitedHealthcare's Sandra Ferguson. "The key is the continuity of care the integration will bring."

"We have Medicaid, we have Medicare, we have Obamacare, and now we have MyCare," said Christopher Beers of Buckeye Community Health Plan. "The question is, 'Who exactly is going to make your benefits decision?' Under the MyCare Program, you will. The program is member-centered. There is one team and one manager, but you are in charge. This program will bring everything (Medicare & Medicaid) together."

MyCare Ohio Facts

The MyCare Ohio plan brings a team approach to the health benefits scene. CareSource, United Health Care and Buckeye Community Health are mandated as benefits providers in this area.

-With MyCare Ohio, you are at the center of your health care decisions. You can express your opinions and make choices about your health care based on the plan menus of the three agencies.

-You will have a care team made up of yourself, your family or caregiver, care managers, primary care doctor, and your specialists.

-Your team will meet with you regularly to plan your care.

Your MyCare Ohio plan will include benefits available through traditional Medicare and Medicaid programs. You may also be eligible to receive added services.

Enrollment into MyCare Ohio is taking place now. Dual eligibles must enroll by 4/30/14 to be effective by 5/1/14. If you do not select a MyCare Ohio plan, one will be selected for you. You have the option to "opt in" and keep your Medicare benefits through 2014, but you must still select one of the 3 above named plans for your Medicaid services. You will have at least 90 days to change your plan.

You can enroll at www.ohiomh.com or the Ohio Medicaid consumer hotline at 1-800-324-8680.

Happy Easter!

How Life Care Center Westlake Changed My Life...

I transferred my husband, who is on Medicare/Medicaid from another nursing home in June of 2013 to LCCW. Every day since then is a surprise how caring and professional the staff is, how delicious food can be in a nursing home, how clean it is, and how much they have to offer to make elderly and ill people's life comfortable.

Finally a place that is not looking for their financial profit first. I am truly impressed with this organization, and when friends and neighbors ask me if I know a good nursing home, I will always recommend LCCW.

I have toured many homes in the past, nothing came even close. I have experienced three homes before, this is by far the very best. And it does not matter if you have private insurance or Medicare/Medicaid.

After going through this ordeal for over 6 years, I can finally take a deep breath and stop worrying.
